

PSF Series (Pedestal Stand Fans)

Features

- ❖ Saving energy
- ❖ Strong wind power
- ❖ Convenient to move
- ❖ High performance motor for better air delivery
- ❖ Aerodynamically designed & Balanced blades.
- ❖ Make low noise and light weight due to die-casting aluminum alloy.
- ❖ With good capacity, the reasonable structure and the strong suction.
- ❖ High Quality Motor & Reliable Steel body structure

Applications

- ❖ PSF Series fan specially manufacturing for underground tunnelling works & Underground MRT construction works etc.
- ❖ Use in various heavy-duty ventilation in firefighting, piping construction, warehouses, factories etc.
- ❖ Also applicable in factories, industrial zones, and workshops etc.

Specifications

Model	Diameter	Speed	Power	Voltage	Air-flow	Noise
(PSF)	mm / Inches	rpm	Watt	V	m3/hour	dB (A)
PSF-500	500(20")	1400	150	220	10,200	60
PSF-600	600 (24")	1400	190	220	11,000	67
PSF-650	650(26")	1400	200	220	12,300	68
PSF-750	750(30")	1400	250	220	15,600	75
